

Hari Prasad Reddy Konda

Full Stack Developer @ AHNAIZN Business Group.

I am a Full Stack Developer with over 3+ years of experience working across India and the UK, building user-friendly, secure, and scalable web applications. My technical strengths are in JavaScript, React, Node.js, PHP, and MySQL/MongoDB, and I enjoy working across both front-end and back-end development. Having started my career in India and progressed through multiple promotions in the UK, I bring adaptability, problem-solving skills, and a strong work ethic to every project. Alongside my technical background, I hold an MSc in Management, which has strengthened my teamwork, communication, and leadership abilities.

PROFESSIONAL EXPERIENCE

Full Stack Developer

February 2025 – Present

AHNAIZN Business Group – United Kingdom

To design, build, and optimize full-stack applications that improve business efficiency, deliver secure solutions, and enhance user experience while collaborating effectively with cross-functional teams.

- Built and deployed scalable full-stack applications using React, Node.js, Express, and SQL/MongoDB.
- Led development of a new internal platform that improved workflow efficiency by 30%.
- Collaborated with designers, project managers, and stakeholders to deliver secure and high-quality solutions.
- Implemented optimization techniques that reduced page load times by 40% and enhanced user experience.

Full Stack Developer Intern

February 2024 – January 2025

AHNAIZN Business Group – United Kingdom

To gain hands-on full stack development experience by supporting end-to-end application builds, learning best practices, and contributing to real client and internal projects.

- Assisted in developing front-end components with React and back-end APIs using Node.js and Express.
- Contributed to the successful delivery of two client-facing projects, earning positive stakeholder feedback.
- Improved API response times by 20% through code optimization and effective debugging.
- Integrated MySQL and MongoDB databases to support dynamic, data-driven applications.

Associate Web Developer

March 2023 – January 2024

AHNAIZN Business Group – United Kingdom

To support web development projects by building responsive interfaces and enhancing user experience within Agile teams.

- Built and maintained responsive websites with HTML, CSS, JavaScript, and WordPress for cross-device performance.
- Delivered a redesigned client website that increased page engagement by 25%, improving overall user retention.
- Supported Agile sprints by assisting in UI/UX improvements, testing, and deployment of client projects.
- Streamlined front-end workflows by introducing reusable code components, reducing development time by 15%.

Junior Full Stack Developer

July 2021 – February 2023

Marketing Zettabyte – India

To strengthen full-stack development skills by supporting senior developers in building and optimizing client applications.

- Developed full-stack web applications using PHP, JavaScript, React, and MySQL.
- Contributed to a customer portal that reduced manual reporting time by 30%.
- Supported senior developers with API integrations, debugging, and testing.
- Optimized SQL queries and back-end processes, improving system performance by 20%.

TECHNICAL SKILLS
